

Dear Dr. Marcos Martínón-Torres and Dr. Robin Torrence,
Dear Editorial Board of the *Journal of Archaeological Science*,

Please find herewith my manuscript entitled “DSP2 method is so damn’ cool!”, which I am submitting for publication in your journal as a Joke article.

Some recent research articles have proposed methodological advances for sex estimation using the human os coxae (Vacca & Di Vella, 2012), but as you will see, my article is much better.

I look forward to hearing from you.

Yours sincerely,
Frédéric Santos
